

Environmental Policy Statement

BECT Building Contractors Limited is a medium sized building company employed in refurbishment and new build projects within the commercial, residential, industrial and retail sectors.

The Company recognizes that its business activities may have environmental implications and will follow a policy designed to minimize environmental damage.

Operations will be managed and organized to minimize, so far as is reasonably practicable, environmental damage from noise, dust and damage to ground water and drainage systems.

The Company will, so far as is reasonably practicable:

- Observe and comply with all statutory regulations and obligations related to the protection of the environment;
- Regularly assess and control the environmental impact of the business activities;
- Continually raise the awareness to employees of the effect of their actions on and their responsibilities to the environment;
- Manage building and construction sites in an environmentally sensitive manner;
- Make use of best environmental practice when planning and developing operations;
- Prevent pollution when carrying out operations;
- Minimize waste and re-use waste products where possible;
- Consult with employees on environmental issues;
- Select materials and services which are less damaging to the environment;
- Ensure adequate resources are made available to achieve the aim of this policy;
- Ensure this policy is reviewed regularly and updated as necessary.
